	Carbon Monoxide Alarm

Fire Alarm Instructions

- 1. If the Fire Alarm sounds – you must evacuate any buildings immediately!** Directing everyone to the assembly point at the Flagpole on the main field.

- 2. Call 999 and ask for the Fire service.** Please liaise with the Duty Warden. There is a landline telephone in the Wardens Den. You will also be able to make mobile telephone calls from the Flagpole.

- 3. If the Fire Alarm has been set off by accident or there is an error,** please follow this procedure:
 - Liaise with the Duty Warden
 - They will:
 - Firstly, gently press 'Silence Alarm' on the Fire Alarm Control Panel
 - Secondly gently press 'Reset'
 - Finally, gently press 'Alt' followed by 514, this will reset the alarm.

 - **Please note:** the Golf House Fire Alarm Control Panel has soft touch button that only need pressing gently. If you press them firmly it is likely to damage the touch buttons.

In case of an emergency

1. Dial 999 or 111 and ask for the relevant emergency service you require.
2. Please be aware that there is a Defibrillator and Bleed Kit situated outside the Barn next to the Wardens Den (this is in an unlocked cabinet). There is also a further Bleed Kit situated on the outside of the Lakeside Activity Building.
3. If you require urgent emergency care but can make your own way to the hospital. The nearest hospitals are as follows:

Routine inspection by RESPONSIBLE PERSON.

The RESPONSIBLE PERSON should carry out visual inspections on all extinguishers regularly. The visual inspections should be carried out at least monthly. When circumstances require, inspections should be carried out more frequently. When carrying out these visual inspections, it should be ensured that: A. Each extinguisher is correctly located in the designated place; B. Each extinguisher is unobstructed and visible; C. The operating instructions of each extinguisher are clean and legible and face outwards; D. Each extinguisher has not been operated and is not obviously damaged or has any missing parts; E. The reading of any pressure gauge or indicator fitted to an extinguisher is within operational and safety limits; F. The seals and tamper indicators of each extinguisher are not broken or missing. The responsible person should record the results of these visual inspections and arrange for corrective action, where necessary, by a competent person. In the event of doubt, the responsible person should arrange for a competent person to examine the extinguisher.
